

CAPSULE SUMMARY

BA-1078

318 E. Pennsylvania Avenue

East Towson, Baltimore County

1880-1900

Private

The dwelling at 318 East Pennsylvania Avenue was constructed between 1880 and 1900 in the East Towson neighborhood of Baltimore County. The history of East Towson dates from the purchase of one-and-a-quarter acres of land by Daniel Harris in September 1853. This is believed to be the first documented African-American landholding in Towson, and is among the oldest such ethnic enclave in Baltimore County. Further, manumitted slaves and/or descendents of former slaves, many of who were owned by Charles Ridgely, populated the neighborhood. Hampered by the low economic status of the residents, development in the 19th century was slow, increasing after the turn of the 20th century. The setting of the property, building styles, and construction materials were guided by the limited economic status of the residents and their desire to establish a neighborhood of their own without the assistance of white architects, builders, and craftsmen. By 1927, the community was ninety-five percent improved with single-family dwellings, social buildings, a school, and religious structures.

This vernacular single-family dwelling is located on a sloping lot with a paved parking lot and barbed wire security fence to the rear of the house. It is two-and-a-half stories in height and two bays wide with a side gable roof. It sits on a solid parged foundation and is re-clad with asbestos shingles. The single-leaf six-paneled wood door features a two-light transom. Two twenty-light fixed wood windows are centered on the first and second stories. A pent roof covers the full-width of the first story of the façade. A centered front gable wall dormer pierces the roofline of the façade. The dormer uses one 2/2 double-hung wood sash window. All of the façade windows feature fixed louvered shutters. There is one center-interior brick chimney with a corbeled cap. The roof is sheathed with asphalt shingles, and the boxed cornice is encased with aluminum siding. Several additions have been made to the house, including a two-story rear ell, a one-story shed roof section on the side elevation, and a canted bay window on the opposite side elevation. There is also an attached concrete block two-bay garage with a gable roof on the rear elevation.

☐ Maryland Register

☒ not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

The house at 318 East Pennsylvania Avenue was constructed between 1880 and 1895 in the East Towson neighborhood of Baltimore County. East Towson is associated with events that have made a significant contribution to the broad patterns of our history, specifically the pre-Civil War development of an African-American neighborhood in a predominately white community. The history of this property dates from the purchase of one-and-a-quarter acres of land by Daniel Harris in September 1853. This is believed to be the first documented African-American landholding in Towson, and is among the oldest such ethnic enclave in Baltimore County. Further, manumitted slaves and/or descendents of former slaves, many of who were owned by Charles Ridgely, populated the neighborhood. Hampered by the low economic status of the residents, development in the 19th century was slow, increasing after the turn of the 20th century. The setting of the property, building styles, and construction materials were guided by the limited economic status of the residents and their desire to establish a neighborhood of their own without the assistance of white architects, builders, and craftsmen. By 1927, the community was ninety-five percent improved with single-family dwellings, social buildings, a school, and religious structures. Many of the current homeowners and tenants living in the neighborhood are descendents of the first African-American residents.

East Towson as a whole is representative of an important phase of architectural development in Baltimore County, illustrating the dilution of popular architectural styles to more efficiently meet the needs of the neighborhood, and the builders' untrained abilities to execute the fashionable ornamentation. Thus, East Towson provided lower cost housing in a more suburban neighborhood, rather than the urban setting their economic status typically perpetuated.
